

# CASE #1 - Renowned perfume company seeks help with new ISO standard

Advice for a client who wanted to implement an ISO standard in their premises

## #Challenge

The client was required to meet more demanding **compliance standards** following the emergence of a **new ISO standard**.

## #Response provided

Trescal **supported** the client by **upgrading their metrological process compliance levels**. The **rigor** and **organisation** of Trescal's teams enable them to **assess needs, suggest suitable proposals** and **perform calibration services**. Trescal's **involvement** has enabled this client to **remain compliant** with the current standard to guarantee the **quality** of the products for its own clients.
